FINISHES

A wide range of grained or smooth foils are available, either for the exterior of the window, the interior or both. In addition to this, we can offer a molecular-bonded spray finish using colours from BS, RAL or Farrow & Ball.

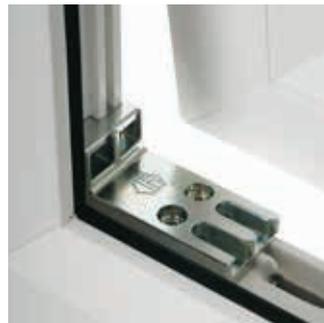

KEY FEATURES

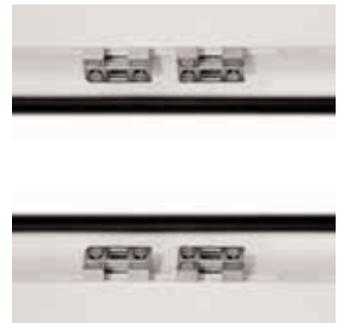

A range of key-lockable handles in offset, monkey tail and teardrop designs.

Friction stays for smooth and reliable operation all year round.

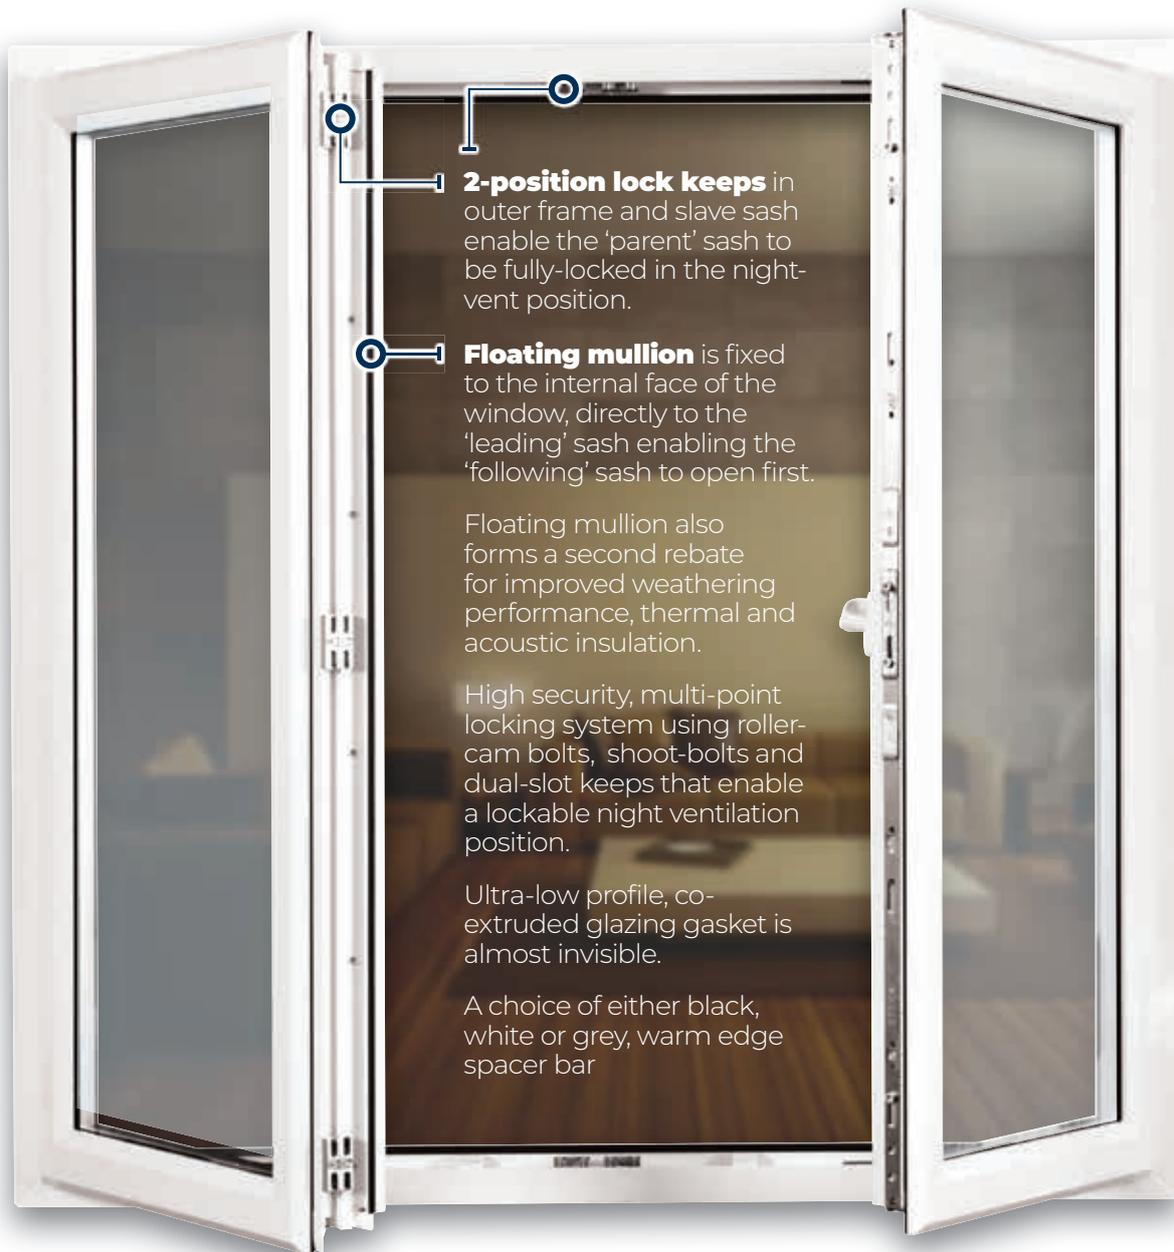

Window keeps with dual slots enabling a lockable 'slightly-ajar' night ventilation position.

Central window keeps, top and bottom

OVERVIEW

Fusion-welded frame - **Optional** hinge bolts for enhanced security - Easy-clean, wide opening fire escape stays.

High-impact modified PVCu prevents cracking with age or extreme cold The polished finish reduces maintenance and retains a cleaner look for longer, helping resist airborne pollutants and moulds.

Double-glazed 28mm unit uses clear energy glass, to achieve maximum amounts of light, and an **'A' WER / 1.4 U-Value**. **Triple-glazed 36mm** units can achieve an **'A+' / 0.9 U-Value**.

Shoot Bolt Locking Mechanism

Extending **shootbolts**, top and bottom, form part of the multi-point locking system.

Expanding Mushroom Bolt Locking Mechanism

Expanding central **'mushroom bolts'** form another part of the multi-point locking system.

KEY FEATURES Standard Specification

Give your home a touch of continental charm with stylish French windows! They not only look elegant but also provide excellent ventilation, security, and a reliable escape route.

French windows open fully for an unobstructed view and easy escape, yet you can choose to open just one sash if preferred. They're energy-efficient, highly secure, low-maintenance, and available in various styles and colors.

TRIPLE GLAZING

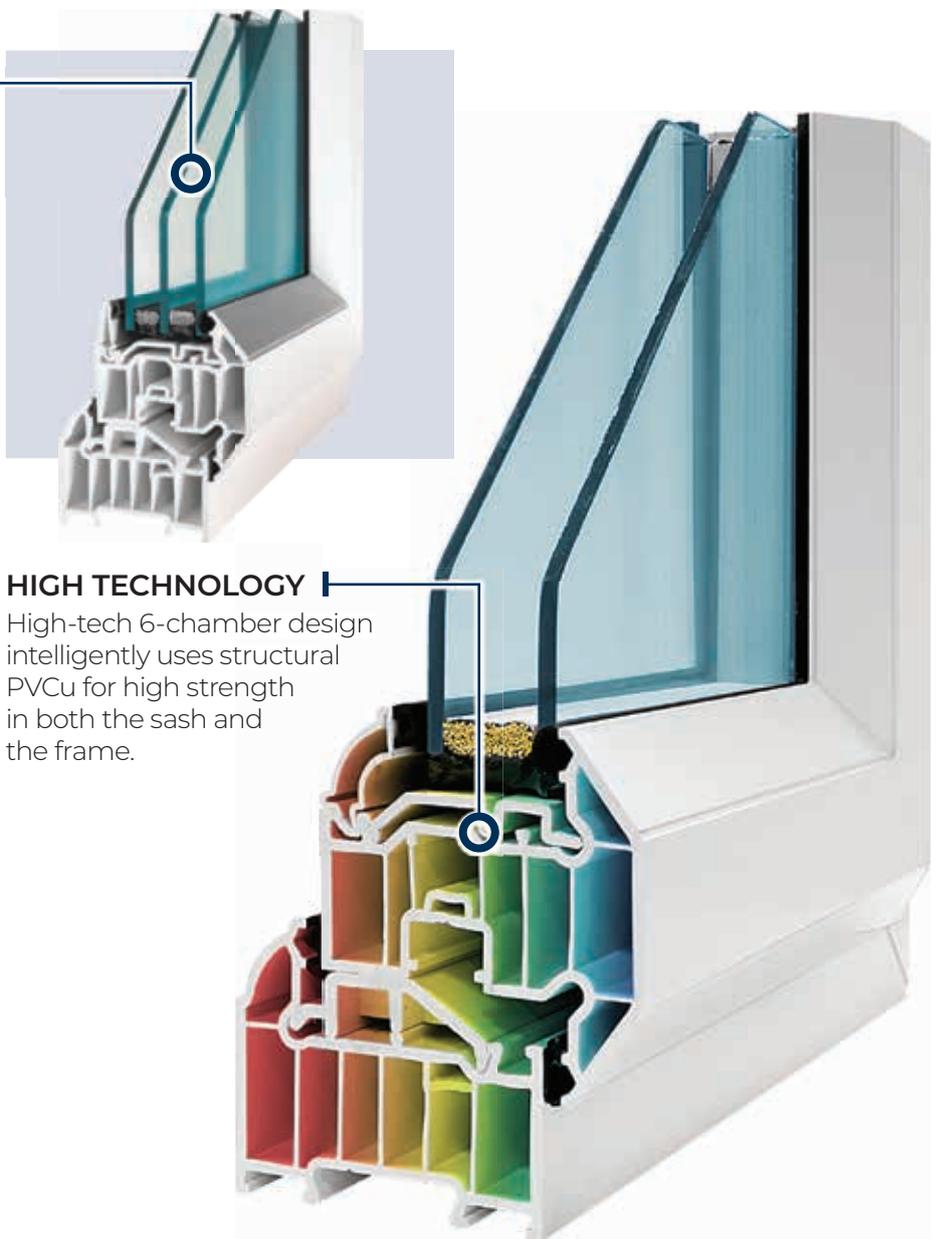

Also available with a triple-glazed sealed unit

100% LEAD FREE

Our PVCu is completely free of poisonous lead stabilisers

ENERGY EFFICIENCY*

Whiteline slimSASH is one of the best performing products on the market, taking full advantage of the increased thermal efficiency offered by its six chamber profile.

HIGH TECHNOLOGY

High-tech 6-chamber design intelligently uses structural PVCu for high strength in both the sash and the frame.
